## ACM 2006: Riding The UU Tide

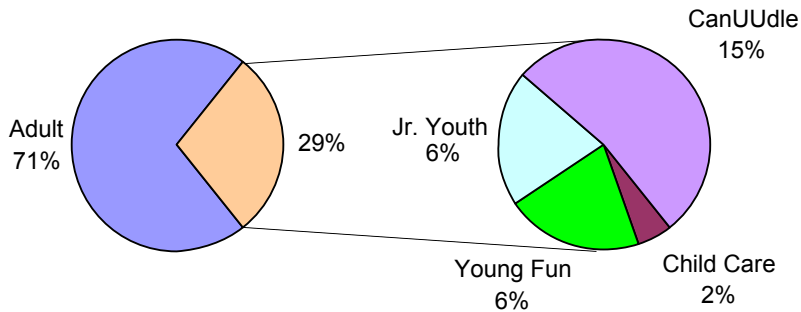

In the early planning stages of the 2006 Annual Conference and Meeting, we knew it wouldn't be setting a new record for attendance, but were delighted as the registrations clicked past 200, 220, 250, 275, then 300 - far exceeding our earlier expectations - and finally came to rest at 327! By several measures, this ACM in Saint John, New Brunswick, was even more successful than last year's ACM, which had over 450 participants.

- Representation by members in the Eastern Region (per capita) was over 50% higher than last year, with 114 in the conference and pre-conference programs, and 43 participating in CanUuddle, Junior Youth, Young Fun and Child Care programs
- 40% of host area (250 miles radius) certified membership - 69 adults, 31 youth and children - attended, versus about 15% of host area certified membership last year
- 12% of overall Eastern Region certified membership attended, versus 16% of Central and Western membership in the prior two years
- Over 40% of those attending had not been to an ACM in the previous five years
- Approximately 10% of participants had been to every ACM since 2002
- Almost 30% of participants were youth and children
